LUXURY BATHROOM BRASSWARE SINCE 1968

St JAMES®
COLLECTION

VICTORIAN INSPIRED LUXURY

STEP INSIDE YOUR
WORLD OF LUXURY

DESIGN TO DELIGHT YOU

We believe design should delight you. You should love it. It should make you smile.

The St James Collection by Marflow is born out of a passion; blending classic design influences with exquisite materials and current technologies to create the highest quality, hand crafted, British traditional bathroom products.

The St James Collection's Victorian period style, evolved with contemporary elegance, allows your bathroom design to come to life with bespoke hand finished details and luxurious customisable options.

Our heritage and expertise in the field of bathrooms along with our innovation ensures that our taps, showers and bathroom accessories offer you the ultimate choice to create something beautifully unique. We really hope you enjoy the experience.

A DISTINCTLY BRITISH HERITAGE

Esteemed in British heritage, the St James Collection has been crafted in England with love and care since 1968.

We are immensely proud that British manufacturing is at the heart of our passionate in-house team in Birmingham.

Our products incorporate only the finest materials and together they allow us to give you the highest possible levels of quality control.

All our plating is done in the UK by renowned British platers and our porcelain is sourced from British potteries.

Our exposed thermostatic valves have been crafted exclusively for the St. James collection to provide timeless luxury.

A modern twist to both our traditional and classical thermostatic valves is the all metal option showcased below with our new sleek and stylish shower head.

- ◀ SJ7461CPLM – Classical exposed thermostatic valve with two function diverter and London metal levers. SJHSRSLECCP with SJK689CPLM – New metal stem handshower, 3" slimline easy clean head showcased with slider bracket and hose kit and London metal lever. SJR08SLECCP – New 8" slimline easy clean shower rose. SJK318LRCP – Shower arm and riser rail.
- ▲ SJ412CPEH – Tall basin mixer with England handles.
- ▲ SJ402CPCLBK – Colonial spout three hole basin mixer with black crystal levers.

- ▲ The SJ330CPLH is also shown with black porcelain parts as SJ330CPLHBK.
- ▲ SJ330CPLH – Bath shower mixer with London handles and our standpipes SJ930CP.

The ultimate in luxury showering.

The reassurance of thermostatically controlled water temperature allows for an invigorating or relaxing shower experience.

Black porcelain levers provide the perfect companion to bright nickel brassware.

◀ SJ7400NILHLLBK – Traditional exposed thermostatic valve delivering single water outlet with black porcelain London handle and black porcelain London lever.
SJK318LRNI – 18mm shower arm and riser rail.
SJR08NI – 8" skirted shower rose.

BRIGHT NICKEL

◀ SJ404NILL – Showcasing our new spout with white porcelain London levers.

BRIGHT NICKEL

Our concealed thermostatic valve with engraved concealing plate have been hand crafted exclusively for the St James Collection to provide timeless luxury.

Brushed nickel combined with white porcelain showcases the timeless traditional brassware experience.

◀ SJ7610BNLL – Traditional concealed thermostatic valve with two function diverter shown with white porcelain London levers.
SJK818LRBN – 18mm vertical drop shower arm.
SJR08ECBN – 8" easy clean shower rose
SJK11BN – Traditional hand shower on wall bracket with our shower wall elbow SJSWEBN.

BRUSHED NICKEL

◀ SJ415BNLL – Monobloc basin mixer with white porcelain London lever.

BRUSHED NICKEL

The luxurious new St. James unlacquered copper finish offers you the chance to be as unique within your bathroom as you wish.

Each day will offer an experience like no other as the unlacquered copper finish oxygenates over time.

- ◀ SJ7410UCLHMILM – Traditional exposed thermostatic valve with two function diverter, London handle with metal indice and London metal lever.
SJK318LRUC – 18mm shower arm and riser rail with SJK689UCLM and ACLHSUC new metal stem handshower with modern easy clean head.
ACLR08UC – Modern skirted easy clean rose.
- ▲ Bottom left picture shows valve before oxygenation. Bottom right picture shows valve after a one year period.

UNLACQUERED COPPER

◀ SJ404UCLHMI – Three hole basin mixer showcasing our new spout with London handles and metal indice.

◀ SJ7300UBLHBK – Traditional exposed thermostatic valve and bath filler with London handles and black porcelain indice.
 SJK318LRUB – 18mm shower arm and riser rail.
 SJEXTP318UB – 18mm x 1m extension pipe complete with connection.
 SJR08ECUB – 8" easy clean skirted shower rose.

UNLACQUERED BRASS

◀ SJ440UBLHBK – Three hole wall mounted basin mixer – long reach spout with London handles and black porcelain indice.

ANTIQUE GOLD

◀ SJ376AGLL – Wall mounted three hole bath filler with concealing plate and white porcelain London levers.

◀ SJ410AGLL – Mono basin mixer with white porcelain London levers.

◀ SJ412AGLL – Tall basin mixer with white porcelain London levers.

◀ SJ330AGLLBK – Bath shower mixer with cranked legs, black porcelain on London levers, diverter and handshower.

ANTIQUE GOLD

A TOUCH OF LUXURY

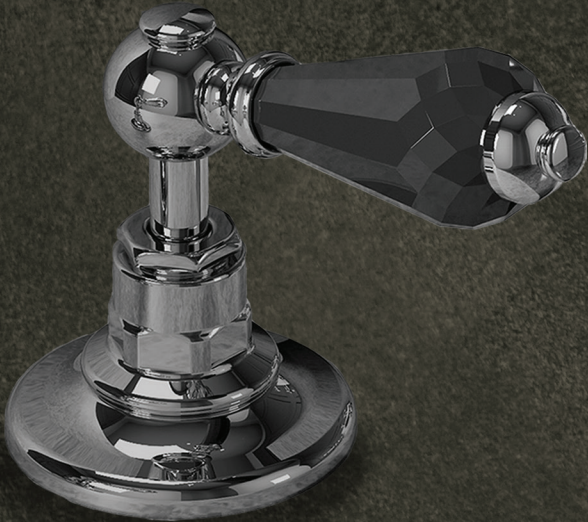

You can feel the difference when you experience luxury; the detail of the ergonomic design, just the right level of resistance in the precision of turn. With the St James Collection our handles blend beautiful design and expert craftsmanship to create a feel like no other.

Choose from cross top or lever handles, each exquisite in their own way and designed to suit your style. London style handles and levers include porcelain or metal options in all

6 finishes whilst our England style handles offer white or black porcelain indice again in all of our 6 finishes.

For those of you looking to raise the glamour stakes, our gorgeous Crystal Edition handles incorporate Swarovski® crystals at their very core.

All look stunning in Victorian inspired traditional homes, Art Deco styled homes and contemporary minimalist homes.

- ▲ England Handle Bath Taps in White and Black.
- ▲ London Lever Basin Taps in Crystal Clear and Crystal Black.
- ▶ London Handle Basin Taps in Black, White and Metal.
- ▶ London Lever Basin Taps in Black, White and Metal.

HANDLES

ENGINEERING EXCELLENCE

We constantly refine and perfect every component, every procedure and every technique to ensure excellence in the design and assembly of our bathroom products.

Our components are cast from solid brass then hand polished, ensuring a superior quality. Using only the finest materials, attention to detail is what we live for in our hand finished showers, taps and accessories.

We revel in bringing traditional brassware to life. The shower roses in the St James Collection are all hand spun and available in three distinct styles, and sizes range from 100mm to 300mm. This is true luxury with all our products built to last.

OUR TALENTED TEAM

We use the latest technology combined with age-old craftsmanship to create products that stand the test of time. All our castings, pipes and diverters are made by our expert craftsmen and women to secure the highest levels of quality control in-house.

We're passionate about our customers benefiting from

generations of experience and in investing in UK manufacturing – there really is no substitute for these delicate, honed skills and taking time with the personal touch.

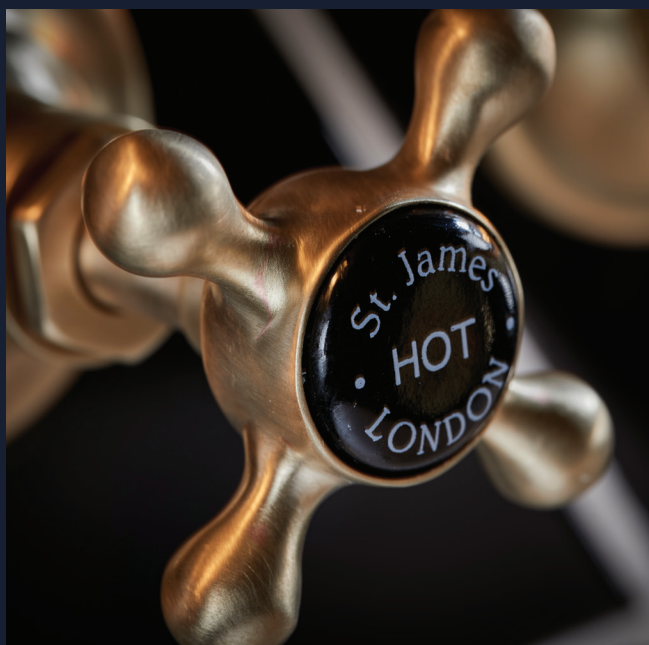

We constantly invest in research and development to help inform our in-house CAD product design team, to ensure we continue to innovate and delight our customers.
